"Turning the Tables."
 The Romans took great pride in their tables of ebony wood from Macedonia. They were laden with ivory and sold at a price that was exceedingly extravagant. When any of the men ventured to accuse the ladies of extravagance, the latter "turned the tables" on them by reminding them of the large sums of money they wanted in buying tables.

"On the High."
 Vivian is three years old. Her father has an automobile and, of course, she has frequent rides. The other night when ready for bed she began jumping up in bed, but always fell back on the floor. After three attempts at an unusually determined effort landed her in the middle of the bed. Turning around she triumphantly remarked: "Did you see me make it on high?"

The highest spot ever prices will be paid for some clean cotton rags delivered at once at the Daily Express office.

SAN FELICE CIGARS

FIVE CENTS STRAIGHT AND WORTH IT!

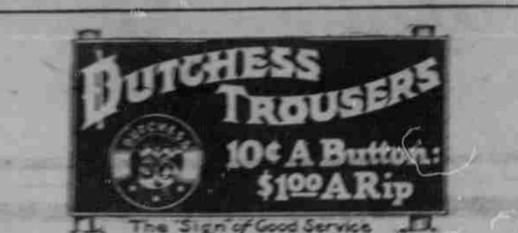

Owing to the greatly increased cost of quality tobacco, in fact everything pertaining to high grade cigars, the makers of the San Felice cigar, The DeWitt-Walker Company, have advanced the selling price to the jobbers and dealers, and hereafter this cigar will positively be sold to the consumer at 5 cents straight instead of 3 1/2 for a quarter as previously.

The San FELICE is renowned for its scope and character, having justly attained this eminence through its unexcelled excellence. To maintain this unequalled standard of quality, the advance in question is absolutely unavoidable. The generous support of all men using quality cigars is warmly desired.
